

BREVET DEFENSE GROUP, LLC

SERVICE-DISABLED VETERAN-OWNED SMALL BUSINESS (SDVOSB)

Vetted veteran-led cybersecurity, compliance, and data support for federal missions — delivered remotely, inside your environment.

Travis Conley, Owner | contracts@brevetdefensegroup.com | Williamstown, KY | brevetdefensegroup.com

COMPANY OVERVIEW

Brevet Defense Group is a veteran-owned small business providing remote cybersecurity compliance, security operations, and data and audit support to federal agencies and prime contractors. Veteran-owned and -led, we deliver from within your accredited environment and scale each engagement with vetted U.S. military veterans as work is awarded — so your team gains disciplined, security-minded capacity without inheriting onboarding or compliance risk.

CORE COMPETENCIES

- **Cybersecurity compliance support** — NIST SP 800-171 / CMMC documentation (SSPs, POA&Ms), control-implementation tracking, SPRS support, and audit-evidence collection.
- **Security operations (SOC) support** — Tier 1–2 alert triage, SIEM and log monitoring, incident ticketing, and escalation.
- **RMF / A&A support** — ATO package development, continuous monitoring, and eMASS documentation.
- **Vulnerability management support** — scan review (Tenable / ACAS), remediation tracking, and reporting.
- **Data, audit & analysis support** — data quality control, records and audit review, reporting, and dashboards.

LEADERSHIP & DELIVERY

Brevet Defense Group is led by its founder, a U.S. military veteran whose background spans **military police, airborne service, and cybersecurity** — bringing operational discipline and a security-first mindset to every engagement. Technical delivery is supported by an IT and cybersecurity professional with extensive hands-on experience. As contracts are awarded, the firm scales by bringing on vetted, clearance-eligible U.S. veterans — building a disciplined bench for reliable, seated, remote delivery.

COMPANY DATA

DIFFERENTIATORS

- **Set-aside value (certification in process).** Our SBA VetCert SDVOSB application is underway; once granted, our status counts toward your small-business and SDVOSB subcontracting goals (FAR 52.219-9).
- **Lower compliance burden.** We work inside your accredited systems, limiting CUI / CMMC scope flow-down to your firm.
- **A growing veteran bench.** Founder-led today, scaling with vetted, clearance-eligible U.S. veterans as engagements grow.
- **Direct line.** Lean structure and direct owner accountability — you talk to the decision-maker, not a layer of management.

PAST PERFORMANCE

Detailed past performance and references available on request as engagements are earned. Leadership brings prior U.S. military service and established small-business ownership and operations.
